Bootstrap 5

Using DataTables. As with previous versions of Bootstrap, DataTables can also be integrated seamlessly with Bootstrap 5. This integration is done simply by including the DataTables Bootstrap 5 files (CSS and JS) which sets the defaults required for DataTables to be initialised as normal, as shown in this example.

JavascriptHTMLCSSComments (0)

The Javascript shown below is used to initialise the table shown in this example:

```
1 $(document).ready(function () {
2     $('#example').DataTable();
3 });
```

Javascript

In addition to the above code, the following Javascript library files are loaded for use in this example:

- <https://code.jquery.com/jquery-3.5.1.js>
- <https://cdn.datatables.net/1.13.1/js/jquery.dataTables.min.js>
- <https://cdn.datatables.net/1.13.1/js/dataTables.bootstrap5.min.js>
